

**CHIPPEWA VALLEY RAILROAD  
FOUNDATION  
JUNE, 2021**

**Next Meeting - June 1, 2021 at the Depot 7 PM**

**Update Highlights:**

- **Repairs on 8101**, Work on the wig wag headlight continues
- **No. 19**. New bearing block have been returned fro Cardinal manufacturing. The bearings are being fitted to the axles

**The New Season begins May 31, Memorial Day**

- Test firing of No 16 and runs around the loop have been completed..
- We begin this coming Monday to operate trains. So please show up to help out.

**June Meeting**

- June 1 at 7 PM at the depot.
- 
- We discuss the opening day. We will discuss the operation and make change as necessary.
- July and Augiust meetings will be at the depot. We will decide on the future meeting locations later. We will resume online meetings probably in October.

**Frank Garber** with the first test run of the year and on the revised mainline to the platform. Passengers include a visiting family from Hayward, WI. They spied our picnic tables for lunch and were surprised to take a train ride.

**Polishing Brass** Dan Perkins focused on details of the preparation of No 16. Dull brass trim required a work to bring the shiny appearance to life again. Brasso, Never-Dull, fine steel wool, and the polishing plus elbow grease did the trick. Byron Bobb, Ethan Winter, Max Koehn , Marc Brown, Jerry Halfen, and Dave Peterson pitched in to polish. NOW, lets keep the brass shining all summer.
