

# *Chippewa Valley Railroad Foundation*

## *News Letter*

*April*

*2018*

### *Next Meeting*

*Date: May, 8, 2018*

*Where: Chippewa Valley Museum*

*Time: 6:45 to 8:00*

*Hello Members,*

*Winter has finally released it's icy grip and winter projects are finally wrapping up. One major project has been the rebuild of #16 boiler and fittings. I'm happy to report this has been completed and is awaiting her first firing with the new boiler. Thanks to Dave Peterson, Marc Brown, Robby Brazau, and Dan Perkins along with many others that contributed in completing this project. Looking forward to seeing this work of precision run again.*

*With the water finally turned on in the park, boiler inspection for 19 can commence Fri. May 4<sup>th</sup> at 1:00 PM. If you have never see this done, this would be a great time to see this process. Also the annual amusement ride inspection is scheduled for 1:00 PM the same day.*

*We had our first evening work session on April 25<sup>th</sup>. We cleaned the roofs of winter debris from the depot and loading platform. Gutters were also cleaned for the summer season. Hopefully this will be the start of a series of evening work sessions this summer.*

*Thanks Everyone,  
Mike Kuhn, President  
Chippewa Valley Railroad Foundation*
