

# DECEMBER 2017 NEWSLETTER

**January Meeting - 6:45 PM - Tuesday , January 9, 2018**

**Chippewa Valley Museum, Eau Claire, WI**

## **Standard Gauge Christmas Train.**

The trains appeared at the Chippewa Valley Museum this year again. Trains ran non stop. Tuesday night trains were very popular this year. Thanks to those who helped set up and assist train operations.

Picture by Dave Peterson

## **January 2018 Meeting**

Please make an effort to attend the January meeting. Mike Kuhn, our incoming president, will be outlining goals for the coming year. This is the time to get involved for the up coming season. Much remains to be done. Participation is needed.

## **Roundhouse Roof Home**

Dave Peterson and Dan Perkins made an application to the Chippewa Valley Builders' Association for assistance to install a new roof for the roundhouse. It was accepted and approved by their Public Relations Committee. The full board will meet in January to approve the project. After approval, we will meet the CVHBA to finalize project. We will buy the material, they provide the labor!

**CHIPPEWA VALLEY RAILROAD  
ASSOCIATION**

***Chippewa Valley Railroad Foundation

August	14th
September	11th
October	9th
November	13th
December	11th

***Message from Mike Kuhn incoming President***

*Greetings every one,*

*I hope all is well with our membership and everyone had a pleasant year. As most would know, we are in a transition period with our group. With my election to president's position and taking office in January, Dave, Robby, and I have started talking on the best ways to start transitioning roles. There is a lot of behind the scenes admin work that goes on to keep the trains running, not only for our enjoyment of trains and steam powered equipment, but also for the public's enjoyment as well. With that said, there will be big learning curve for me in the up coming month's.*

*Dave has agreed to continue writing the News Letter until I can get my feet firmly placed on the ground. In the mean time I will be going over and learning the process that come with managing the Foundation. At the December Meeting I will be going over some of the changes that I hope to implement over the course next few months / year. I will then set an agenda for the January Meeting and we will get started there after. I know there are many things to tackle and it will all take time, so please be patient.*

*Sincerely,  
Mike Kuhn,  
Chippewa Valley Railroad Foundation
